Léo **Aparisi de Lannoy**

Quantitative Researcher

New York, NY

(+1)312-394-9854 | leoaparisi@gmail.com | leoadl.com | leoadl | leoadl | Scholar | French citizen (H-1B visa since 2025-10-01)

Work Experience

Squarepoint Capital *NYC, USA*

Quantitative Researcher *July 2024 – Present*

- Designed Medium Frequency (daily to quarterly) equity alphas using Alternative Data, focusing on consumer surveys. Designed agentic workflows to improve the brand-to-ticker mapping. Live strategies with low turnover and Sharpe around 0.5-1.0.
- Monetized the earnings predictions of fundamental equity analysts, with some systematic trading strategies on the preview period.
- Working on optimizing margins all across the firm. Current focus on uncleared and bilaterally traded derivatives covered by the SIMM model to reduce margins at a portfolio level. Implemented SIMM in q from scratch and linked it to the Fixed Income risk engine.

Education

University of Chicago *Chicago, USA*

Ph.D. program in Financial Economics *September 2018 – June 2024*

Dissertation on *Asset Pricing & Optimal Fiscal-Monetary Policies*, *left the program before completion of the dissertation*

Paris School of Economics *Paris, France*

M.Sc. in Analysis and Policy in Economics, **summa cum laude** *September 2016 – June 2018*

École Normale Supérieure (Ulm) *Paris, France*

B.Sc. in Physics, **cum laude** *September 2013 – June 2016*

Publications

Managing Public Portfolios *Journal of Political Economy*

joint with Anmol Bhandari, David Evans, Mikhail Golosov and Thomas J. Sargent *2025*

Study of an optimal public portfolio which hedges fluctuations in interest rates, primary surpluses, and income inequality. An application to US data shows that hedging interest rate risk plays a dominant role.

Teaching

University of Chicago *Chicago, USA*

Teaching Assistant & Instructor *2019 – 2022*

Empirical Analysis II; Risk, Uncertainty, and Value; Monetary Economics I; Theory of Income I; Topics in Economics
